PROFILE SUMMARY

Java Full Stack Developer with strong front-end development skills and practical experience building responsive, scalable web applications using HTML5, CSS3, JavaScript (ES6+), and React.js. Proficient in Core Java, JDBC, Servlets, JSP, and MySQL for server-side development. Familiar with MVC architecture, RESTful APIs, Spring Boot (learning), and Agile methodologies. Skilled at integrating front-end interfaces with back-end services, applying responsive design principles, and debugging across multiple browsers. Demonstrated ability to work in team environments and deliver maintainable, user-centric applications.

EDUCATION

Manglore University, Field marshal K M Cariappa college, Kodagu, Karnataka, Bachelor in Computer Application, 2021 - 2024

CIRTIFICATIONS

AI Tools & ChatGbt Workshop, BE10X

Java Full-Stack Development, Besant Technologies

PROJECTS

Responsive Personal Portfolio Built with React.js and Tailwind CSS, Link
- Structured content to highlight project case studies, skills, and contact information, enhancing user engagement and accessibility.
- Focused on performance optimization, SEO best practices, and cross-browser compatibility to ensure a seamless user experience.
- Deployed the website using Vercel, enabling continuous integration and fast global delivery.

RJ Technology - IT Services Website, Link
- Engineered and launched a responsive website redesign with service sections and intuitive UI/UX resultin in a 30% increase in user engagement within the first month, as measured by average session duration
- Utilized Vercel for continuous deployment and performance optimization, ensuring fast load times and high availability.
- Followed mobile-first development, component-based architecture, and version control with Git.

RedStore – Responsive E-Commerce Website, Link
- Built a fully functional shopping cart allowing users to add/remove items, adjust quantities, view subtotals, and dynamically reflected cart state across the navigation bar.
- Optimized for cross-browser compatibility and mobile-first design, ensuring smooth performance onnall devices.
- Utilized Git for version control, with clear commit history demonstrating feature development, bug fixing, and iterative UI refinements.

SKILLS

Web Development: HTML5, CSS3, JavaScript (ES6+), React.js, MySQL, Java
React Ecosystem: React Hooks, React Routers, JSX, Component-Based Architecture, State Management
Design Principles: Responsive Design, Flexbox, CSS Grid, Media Queries, Basic UI/UX Principles
Tools & Technologies: Figma, Jest, Visual Studio Code, Chrome DevTools, NPM, Vite, Git & Git-Hub
Other Skills: RESTful APIs, Debugging, Problem Solving, Agile Basics, Excellent Communication
